

**OPEN CALL
FOR DEMONSTRATORS**

Receive **39.000 EUR** to solve a technical challenge using space technology

esa
space solutions

Why build a demonstrator?

Your **terrestrial business** can benefit from **technology** that was once designed for space purposes. It might even tackle a very specific technological problem. Building a demonstrator significantly reduces the risks of transferring a technology from one application field to another.

Which technologies are available to you?

If you have a **technical challenge** and you're looking for a solution, space technology has more than **200 feasible solutions**:

[Find your technology](#)

[Find ESA's Space patents](#)

We have **39.000 EUR** on offer to cover technical costs of demonstrating the use of a space technology in a non-space application. Acceptable costs are related to the implementation of the demonstrators i.e. workforce, materials, equipment. Maximum **10 projects** will be selected.

When, how and where to apply?

If you want us to consider your proposal in the next wave, please submit it before:

May 25th 23:59

There will be a total of three selection waves, unless there is no funding left. Selection dates for the next waves are June 22nd and August 24th.
